PROJECT PROPOSAL

Tentang Borobudur Central Java Amateur Radio Fair 2017

Amateur Radio activities is the channeling of interest and talent in developing capabilities in the field of Electronics and Communications, to produce proficient Human Resources in the Telecommunications Sector Radio, which in turn can provide a useful contribution, for the organization, government and community.

As an organization that represents members who have a hobby in the field of Communications and Electronics, ORARI has its own role as a means of government assistance in surveillance activities, the use of radio waves as well as the ownership and use of the Radio Communications

To carry out surveillance as the above, of course ORARI demanded always strive to keep improving the knowledge and skills of its members in order to maintain the purity of Amateur Radio itself, as well as more mengusasi and steeped in matters related to technical aspects, whether it's a problem of radio waves or concerning the rules that underlie these activities regardless of his own hobby.

As one of the Work Programme Management ORARI Regional Central Java and as a means / media that can be used as a platform to train themselves to improve the knowledge and skills in the field, then ORARI Central Java Regional will organize activities named "Borobudur Central Java Amateur Radio Fair 2017" , Of an activity to meeting Members of Amateur Radio / ORARI disuatu famous tourist spots around the world, to do the race, the scientific discussion / workshop on all Amateur Radio's and all its aspects, in order to increase knowledge, skills, knowledge and increase the brotherhood and kinship Members among Amateur Radio itself.

Locations in Borobudur is an area that is ideal for the implementation of Borobudur Central Java Amateur Radio Fair 2017, from a technical point of this area has a level of difficulty factor is very high, due to geographical location and tofografinya surrounded by hills and mountains surrounding. And no less important, has a vast territory with a variety of attractions that very interesting that this event much awaited and desired by the Members of Amateur Radio to participate..

Purpose and objectives

Borobudur Central Java Amateur Radio Fair 2017 was organized with the intent and purpose as follows

- To enliven the commemoration of Independence to 72, as well as the anniversary of Central Java Province to 67, which falls on 22 August.
- Is a means of self training, sport, recreation and tighten the brotherhood of Amateur Radio, as well as to promote and introduce ORARI positive image to the public.
- Increasing the capacity and technical skills of Amateur Radio in tracking and finding the hidden transmitter station, so that in time can be used to assist the Government in security efforts, the use of radio waves as well as the use of a transmitter in accordance with applicable regulations.
- Increase the activity and creativity of the Amateur Radio to uphold sportsmanship race.
- More introduce Borobudur as a tourism icon of Indonesia and one of the 7 wonders of the world, hoping to attract participants from abroad.
