NTC Element 1 Morse Code Exam Audio Files.

Enclosed in this zip folder are six morse code .wav audio files.

The idea behind the making of these 5 wpm morse code files is to give the user a guide as what to expect when taking the NTC Element 1 Morse Code Exam.

The NTC morse code exam is receive only, the speed is 5 wpm, letters A-Z only (no numbers, no punctuations, no sending morse code).

Each audio file follows the format as in the NTC morse code exam, they will have a preamble HR HR HR AA AA followed by 25 words in English arranged in groups of 5 with 5 letters in each word with AA after each group and a post amble AR AR SK E E E.

NTC Morse Code Exam format:

HR HR HR AA AA
word01 word02 word03 word04 word05 AA
word06 word07 word08 word09 word10 AA
word11 word12 word13 word14 word15 AA
word16 word17 word18 word19 word20 AA
word21 word22 word23 word24 word25 AR AR SK E E E

More information about taking the NTC morse code exam can be found on the PARA website under Members Articles.

The information could contain errors and now for my get out of this clause.
"No responsibility can be taken for the content or any errors"

Note: These files should be preferably used when the user feels ready to take the NTC morse exam…..The reason for including 6 audio files is when using the same audio file often, the user will remember what was previously sent which defeats the purpose of the files, hence the reason for the 6 audio files.
