

To use CueCards

The CueCard software has to be downloaded and installed.

See Learn Morse Code....7.Download for the link to download CueCard

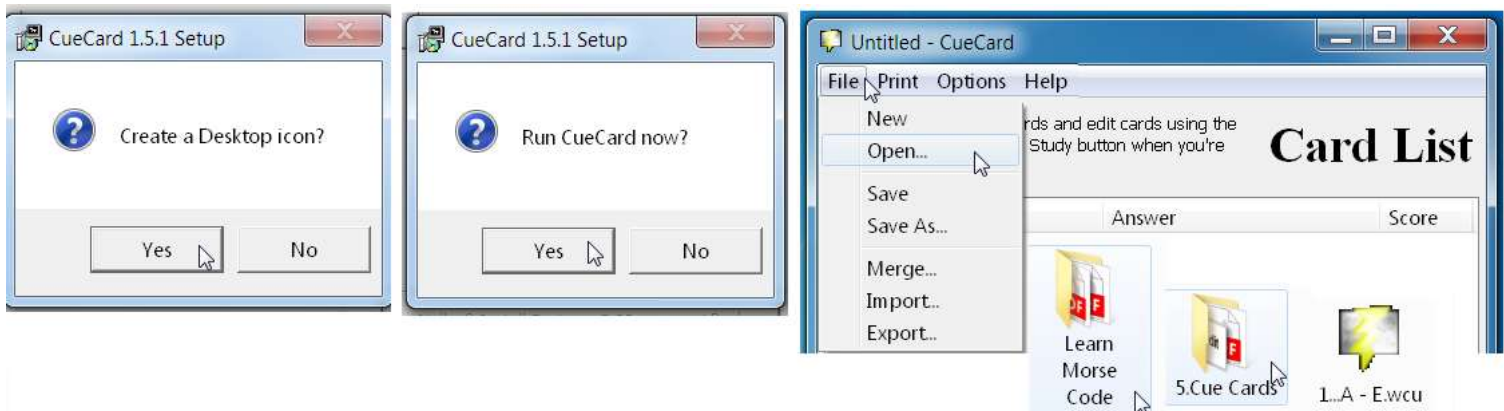

Before the CueCard software is installed, the 5.Cue Cards folder will show the (blank) icons below. Windows can't open this file because CueCard has not been installed.

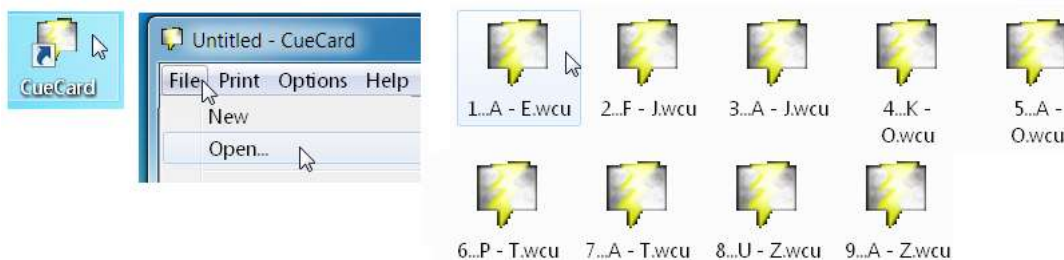

Install CueCard

After cuecard has been installed click on Desktop icon

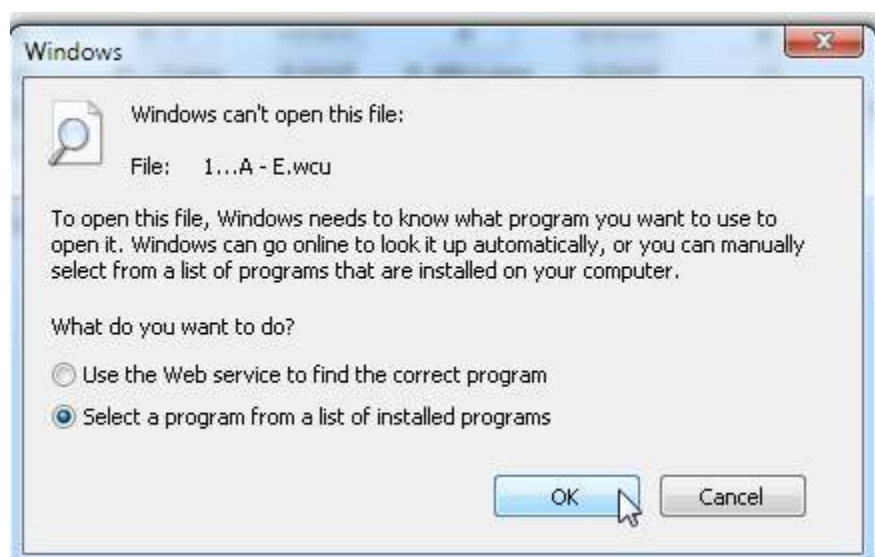

After CueCard has been Setup, clicking on the CueCard desktop icon / File / Open will show the cue card files.

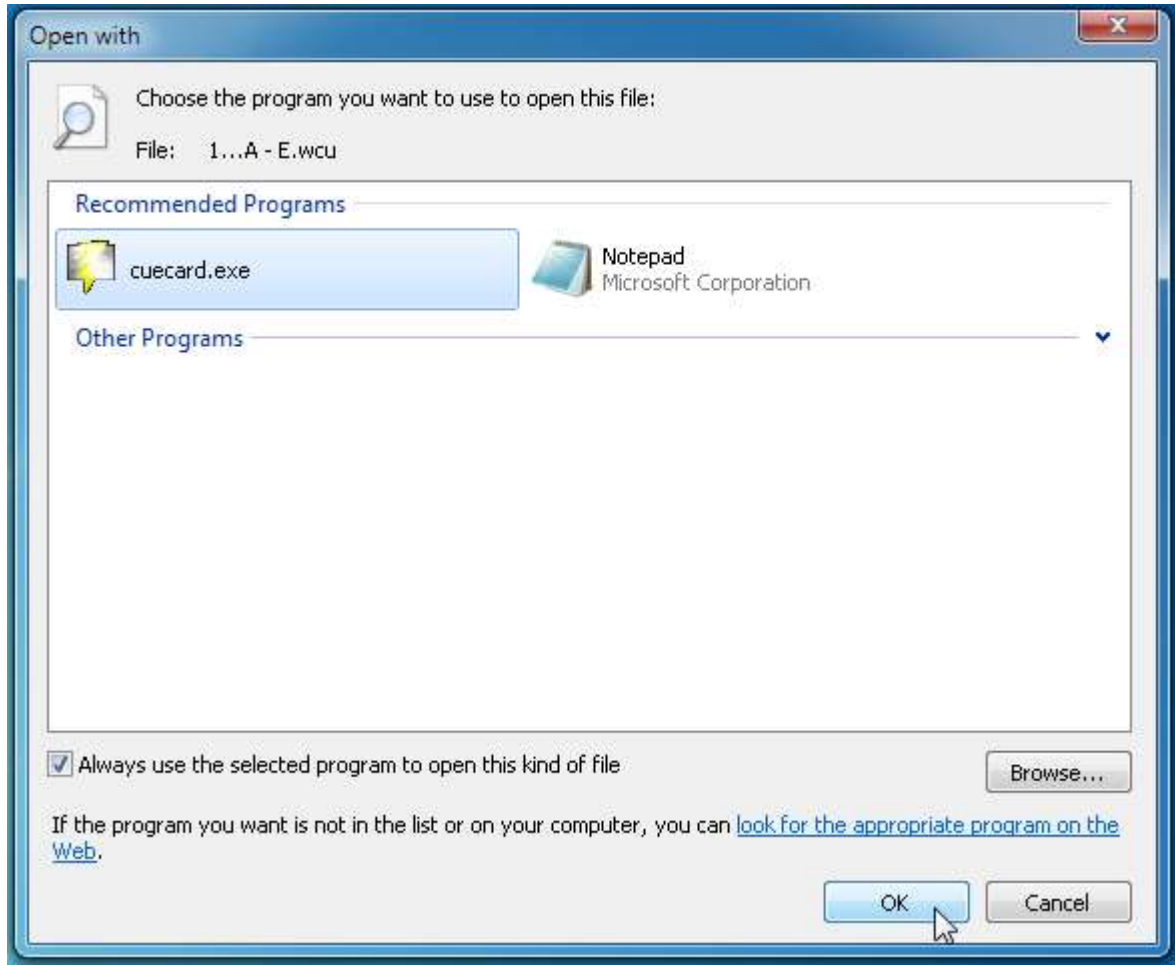

After CueCard has been installed, if having a problem and Windows can't open this file:

Select: Select a program from a list of installed programs, tick OK and choose cue card.

Tick: Always use the selected program etc then OK

The CueCards are in the 5.Cue Cards folder.
